SUMMARY

Motivated Computer Science undergraduate with skills in software engineering, QA testing, web and mobile application development, data analytics, networking fundamentals, and IT support. Experienced in Java, Python, JavaScript, SQL, React.js, Firebase, and Power BI through academic and personal projects. Skilled in software and hardware troubleshooting, problem-solving, and technical support. Passionate about learning new technologies and seeking opportunities to apply technical knowledge in real-world IT environments.

EDUCATION

BSc (Hons) in Computer Science

Saegis Campus, Nugegoda | Sri Lanka

2023 – 2027 (Ongoing)

PROJECTS

Grocery Shopping Mobile Application (Android Development)

Technologies: Java, Android Studio, Firebase, Firestore, Cloudinary, Glide, Material Design

- Developed a full-stack Android e-commerce application using Firebase backend.
- Implemented secure authentication system (Firebase Authentication).
- Designed product catalog with search, filtering, shopping cart, and order management functionality.
- Used Glide & Cloudinary for optimized image loading and storage.
- Applied MVVM-inspired structure, RecyclerView, and Navigation Component.
- Conducted manual testing and fixed UI, logic, and Firebase integration issues during development.
- Improved understanding of Android app lifecycle, debugging, and software quality practices.

Customer Shopping Behavior Analysis (Data Analytics Project)

Technologies: Python, Pandas, NumPy, SQL, Power BI, Jupyter Notebook

- Performed data cleaning, preprocessing, and Exploratory Data Analysis (EDA).
 - Used SQL (PostgreSQL/MySQL) to extract and analyze datasets.
 - Built interactive Power BI dashboard for business insights visualization.
 - Identified customer purchasing patterns and sales trends.
 - Delivered insights to support data-driven decision-making.
-

Coffee Shop Website (Full Stack Web Development) Technologies:

HTML, CSS, JavaScript, PHP

- Built responsive website with modern UI/UX design.
 - Developed dynamic frontend using JavaScript.
 - Implemented Contact Form using PHP backend.
 - Ensured mobile-first responsive design across devices.
-

Personal Portfolio Website

Technologies: React.js, Vite, Tailwind CSS, Framer Motion, AOS

- Developed modern responsive portfolio using React.js.
 - Implemented animations using Framer Motion and AOS.
 - Optimized performance with Vite build tool.
 - Tested responsiveness and cross-device compatibility.
 - Performed UI testing and responsiveness validation across multiple screen sizes.
-

SKILLS

• Technical Skills

Programming Languages: Java, C, JavaScript, SQL, HTML5, CSS3, PHP, Python

Web Development: React.js, Tailwind CSS, Responsive Web Design, REST API Concepts

Mobile Development: Android Studio, Java, XML, RecyclerView, Firebase Integration

Database & Backend: MySQL, Firebase Authentication, Firestore, Realtime Database, PHP

Data Analytics: Pandas, NumPy, SQL Analysis, Power BI, Data Cleaning, EDA

Tools & Technologies: Git, GitHub, VS Code, Android Emulator, Cloudinary, Vite

IT Support Skills: Networking basics (LAN/WAN), hardware/software troubleshooting, Windows fundamentals, printer & device configuration, software installation

Software Testing & QA: Manual Testing, Functional Testing, UI Testing, Test Case Design, Bug Reporting, Debugging, SDLC Fundamentals, Validation Testing, Basic Knowledge of Selenium IDE, Basic Knowledge of Apache JMeter

AI-Assisted Development Tools: ChatGPT, Google Gemini, Claude AI, Cursor AI, GitHub Copilot (Learning)

• Soft Skills

Problem Solving

Team Collaboration

Communication

Analytical Thinking

Time Management

Quick Learning

Attention to Detail

Accountability

CERTIFICATIONS

Python for Beginners – University of Moratuwa (CODL)
Foundations of Web Development (HTML, CSS, JS, React) – Udemy
CSS, Bootstrap, JavaScript & PHP Stack – Udemy
UI/UX Design using Adobe XD – Udemy
Git Training – Simplilearn
Generative AI for Beginners – Simplilearn
Project & Program Management – Udemy
Data Analyst Certification – Udemy
Web Hacking for Beginners – Udemy
Adobe Illustrator Projects – Udemy

CAMPUS LEADERSHIP & CLUB INVOLVEMENT

Leo Club – IT Director 2024 – 2025

- Managed IT-related activities and digital support for club operations
- Assisted in organizing technical and social service events
- Contributed to digital communication and event promotion

Student Forum – Editing Panel Member 2024 – 2025

- Supported campus projects and student activities under the main student governing body.
- Created, edited, and managed official posts and announcements
- Assisted in execution of student projects and ensured smooth coordination
- Collaborated with teams to successfully complete academic and extracurricular activities

Media Club – Editor 2025 – 2026

- Created and edited media content for club events and promotions
- Managed visual content for social media and campus activities
- Improved branding and communication quality of club materials

Leo Club – Chief Event Coordinator 2025 – 2026

- Led planning and execution of club events and community programs
 - Coordinated teams, schedules, and event logistics
 - Managed event operations and ensured smooth execution
